

# How to Create an RFQ (Request For Quotation)

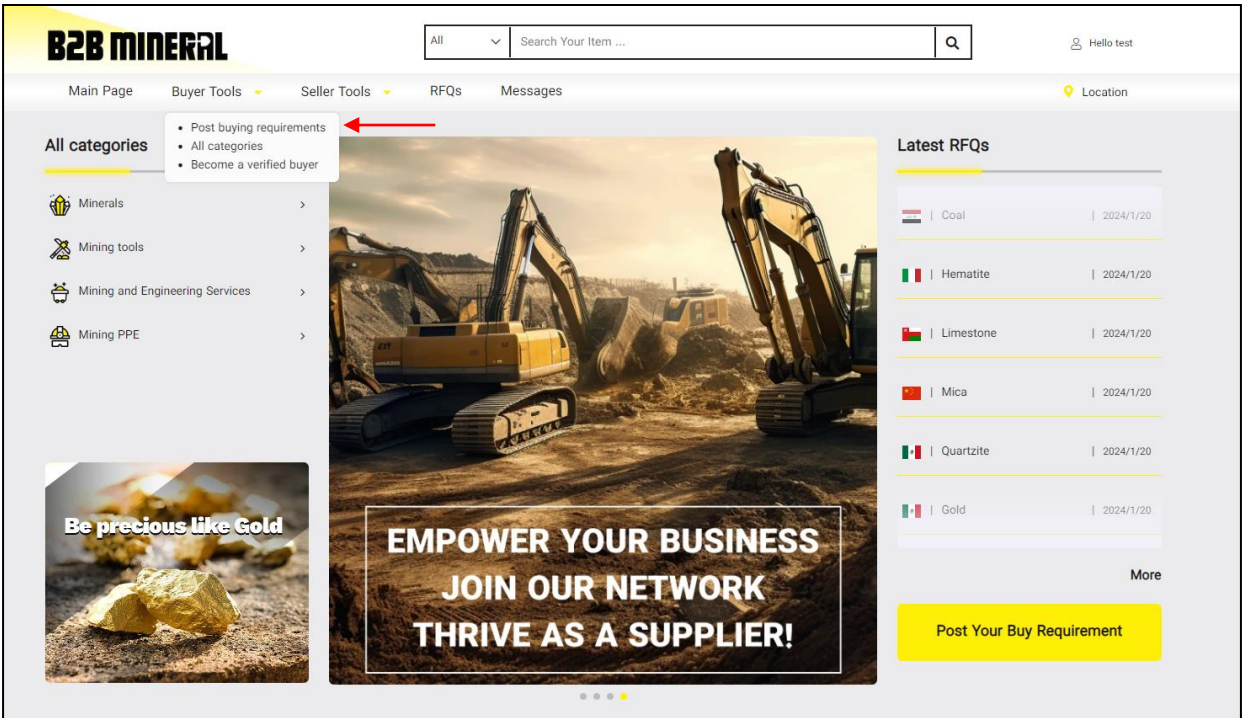

Creating an RFQ is free and easy! Just be a member and log in to choose products or services from various sellers.

Here’s how to create an RFQ:

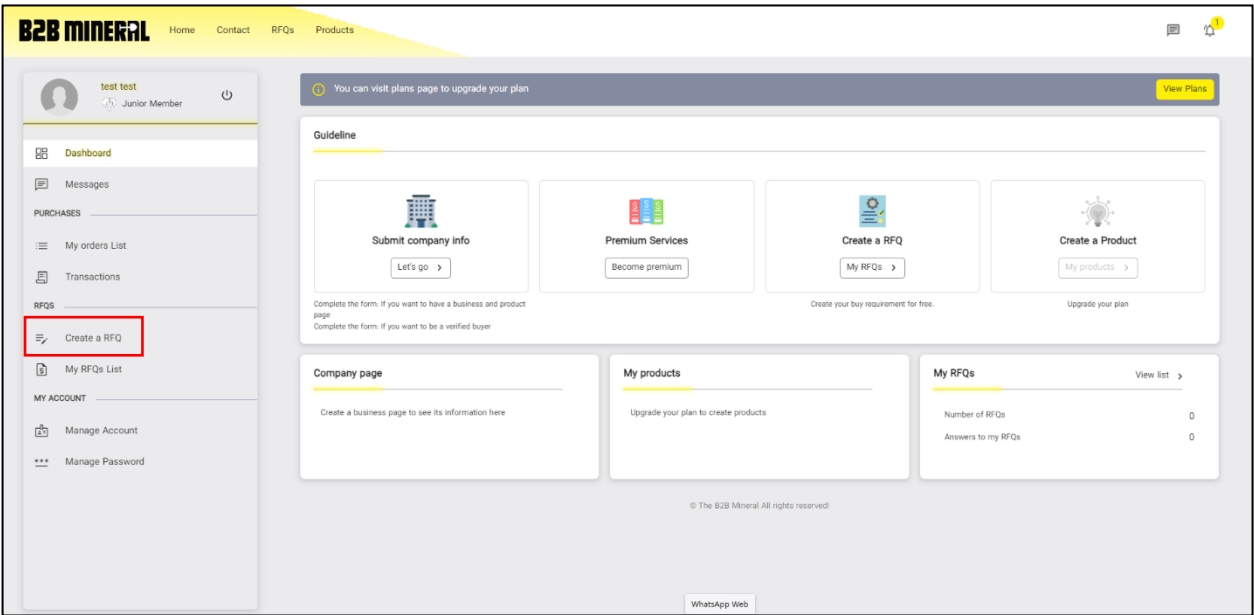

1- From the Main Page:

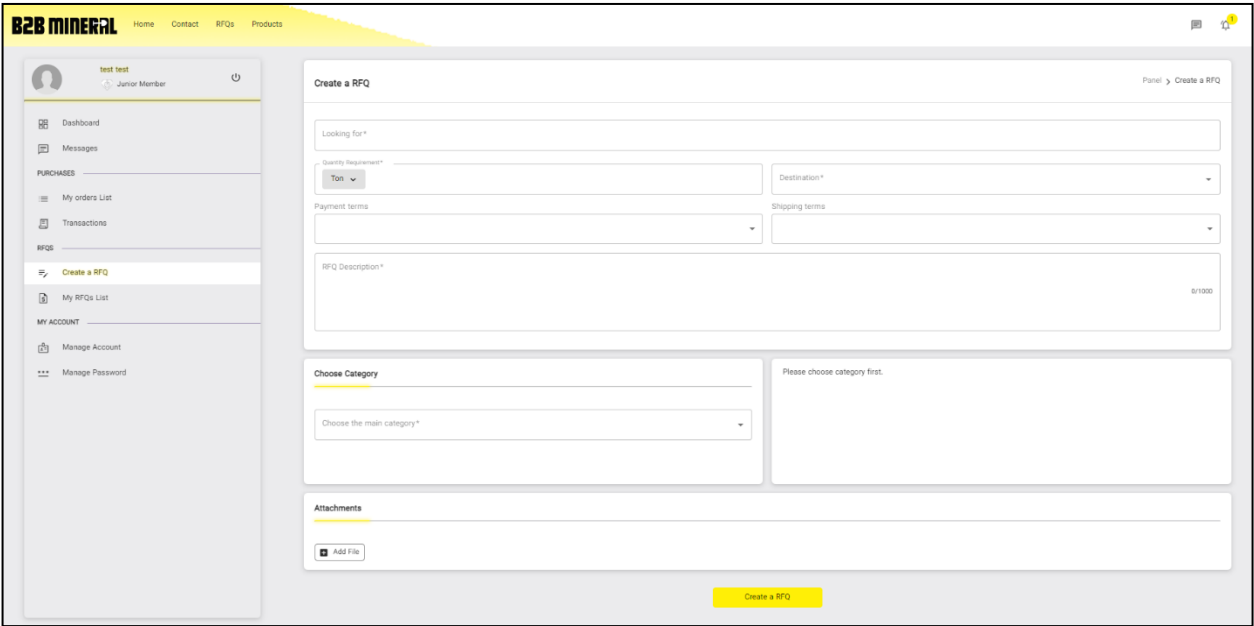

2- From the Buyer Tools Section in the top menu:

3- From Your Account:

Clicking any of these will take you to the RFQ creation page, like this:

On this page, enter all necessary details about the product or service you need. Specify the category and attach any relevant files or images. Click "Create an RFQ" when you're done.

Your RFQ will be reviewed by our admins. While it's being reviewed, you'll see a message at the top of the RFQ page.

 Your RFQ is being checked!

Once approved, your RFQ will be visible to all site visitors. It will also be sent to businesses that offer the product or service you're looking for, who can then contact you directly.

 Congratulations! Your RFQ is verified and active.
