

How to Create Your Products on the Site

To add products to the site, you first need to create your business page and then proceed with adding your products. The number of products you can list depends on your plan type.

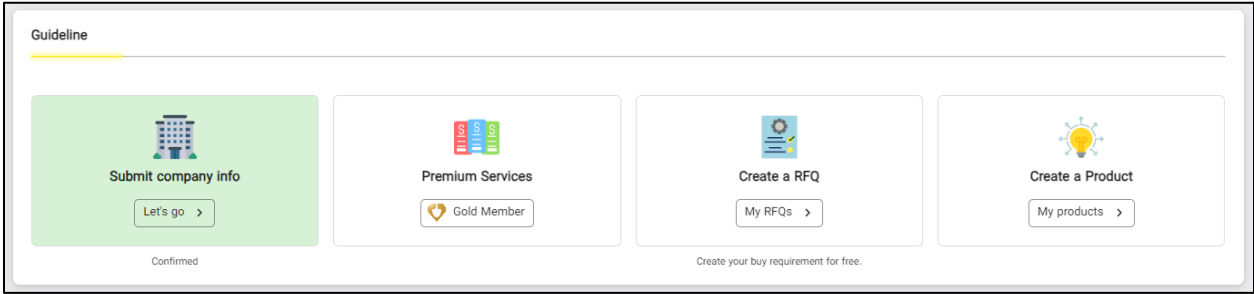

You can create products through several methods:

From **Seller Tools**, click on **Seller Dashboard**.

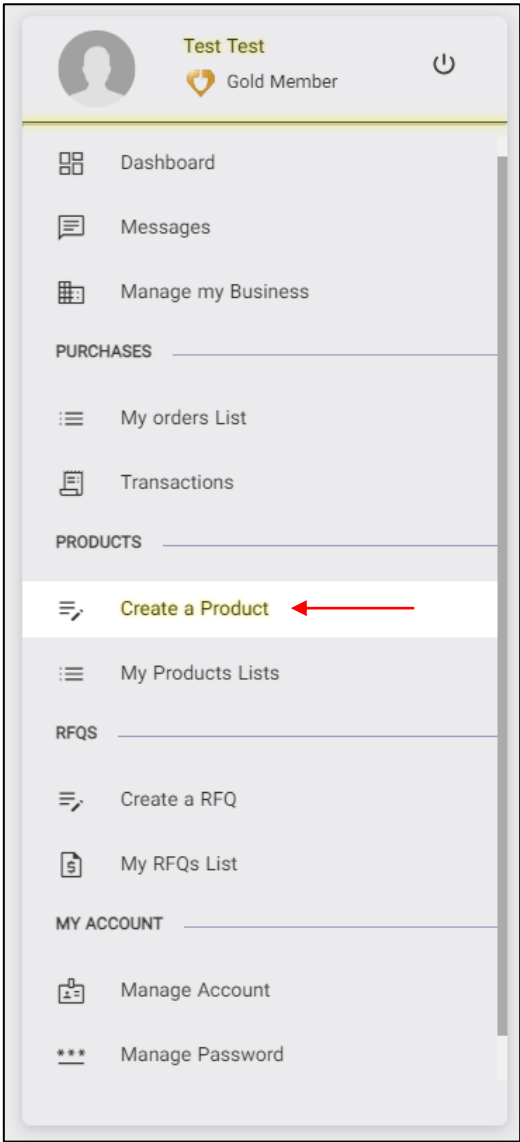

Latest RFQs		
	Aluminium Ingot A7	2024/7/18
	Granite	2024/4/23
	Copper	2024/4/23
	Fluorite	2024/4/23
	Zinc	2024/4/23
	Hematite Iron Ore	2024/4/23
More		
Post Your Buy Requirement		

From the **dashboard**, click on **Create a Product** to access the product creation page.

Alternatively, you can click on **Create a Product** from the left-hand menu of your user account.

On the product creation page, complete the required fields.

Enter the name, price, and other details of your product.

Add item

Image Size should be 800x600 px

In this section, select the location of your product's warehouse. If the warehouse is at the same location as your company, choose the first option.

Warehouse Address

☒ The Warehouse of this product is in the same as the company location

☐ The Warehouse of this product is in another location

In the second scenario, if you have a warehouse location other than your factory, enable this option and specify your product's storage location.

Warehouse Address

Dubai

☐ The Warehouse of this product is in the same as the company location

☒ The Warehouse of this product is in another location

In this section, provide a description of your product.

Product Description

A show Controls

Write the relevant description

In this section, you can upload files or documents related to your product for additional details.

Attachments

Add File

If you have samples of your product available for buyers, enable this option.

Do you have a sample of this product to provide to the customer?

No

Then, by clicking this option, your product will enter the review queue for our experts. Once approved, it will be displayed on the website.

Create a Product

After your products are approved, you can go to your business page and select the products you want to showcase. These products will then be displayed in the Showcase section of your page.
